ABOUT NCPRD

North Clackamas Parks and Recreation District (NCPRD) is a service district of Clackamas County dedicated to providing exceptional parks and recreation programs, facilities, and services. Voters approved the formation of the District in 1990 because they saw the need for greater parks and recreation services in the north end of the county. The District—which serves more than 105,000 residents in a 27-square mile area—includes the City of Milwaukie and a large area of unincorporated Clackamas County.

The district features 35 developed parks, 7 natural areas, and a network of trails including the 6-mile Trolley Trail. Residents also enjoy access to unique facilities like North Clackamas Aquatic Park, Milwaukie Community Center, and Concord Community Center. Through protected green spaces and a wide variety of recreational programs, NCPRD provides opportunities for all ages to connect, stay active, and explore the outdoors.

OUR MISSION

To enrich community vitality and promote healthy living through parks and recreation.

OUR VISION

Enhancing and connecting your community by providing exceptional parks and recreation opportunities for all.

LAND ACKNOWLEDGEMENT

What we now call Clackamas County is the traditional lands and waterways of the Clackamas, Chinook Bands, Kalapuya, Kathlamet, Molalla, Multnomah, Tualatin, Tumwater, Wasco and many other tribes of the Willamette Valley and Western Oregon. The Indigenous people lived, traded, and navigated along great rivers and tributaries presently named the Clackamas, Molalla, Pudding, Sandy, and Willamette. Many of the original inhabitants of this land died from disease, war, and other conflicts. Those that survived these tragedies were forcibly removed and relocated by European settlers and the United States government because of the land's value. Today, their descendants live on, still carrying on the traditions and cultures of their ancestors.

We honor the Native American people of Clackamas County as a vibrant, foundational, and integral part of our community here today. We thank those who have connection to this land and serve as stewards, working to ensure our ecosystem stays balanced and healthy.
