

Permanent Tax Rate

NCPRD has a dedicated **permanent tax rate of \$0.5382 per \$1,000** of assessed value, which goes toward day-to-day operations, providing recreational programming and social services, and the maintenance of parks and facilities in the District.

Key Challenges

- There has not been a tax rate increase since NCPRD's formation; revenues have not kept pace with inflation.
- Planned \$50M Capital Bond Measure never presented to voters to fund new parks and facilities which increases reliance on System Development Charge (SDC) funds.
- SDC fees for new development are insufficient with inflation.

Comparison With Other Park Districts
